## DUHA SHELLAH
Chief Executive Officer "CEO"

From passion to reality, this is simply the Researchist . This is "As the name suggests " a research community pooling university students who are interested in scientific research here in Palestine including medical ,health sciences, engineering and applied sciences fields. Founded in 2019 by a group of passionates, aiming to make research a youth language and helping other students to advance and improve their research skills , and by humble means raising the culture of research within Palestinian youth. All of this is done by networking with scientific deanships,research expertise and university professors in West Bank and Gaza universities,along with collaborator researchers from inside and outside Palestine.
