Partners seek to create new strategic approaches and cooperation for concrete skills development solutions in a specific sector or area. This initiative will implement one major action of the European Skills Agenda for sustainable competitiveness, social fairness and resilience, the Pact for Skills by developing a sectoral skills strategy in one of the 14 industrial ecosystems

(sectors fit for Palestine given below)

Alliances under Lot 2 will support the implementation of the Pact by developing a sectoral skills strategy.

What proposals should include

- design of continuing vocational training programmes to address urgent skills needs of people in working age

- The design of related core curricula and education and training programmes leading to those qualifications.

- developments of emerging occupational profiles, related qualifications, which should cover upper and post-secondary VET levels (EQF levels 3 to 5) and tertiary levels (EQF levels 6 to 8).

Alliances have to **choose for their proposal the single industrial ecosystem** which their project will address (For example the inland agriculture and health applications in the herbal medicine example).

Call Info

Call	Partnerships for Innovation: Alliances (ERASMUS-EDU-2022-PI-ALL-INNO)
Programme	Erasmus+ Programme (ERASMUS)
Work programme year	ERASMUS-2022
Type of action	ERASMUS-LS ERASMUS Lump Sum Grants

Alliances for Innovation aim to strengthen Europe's innovation capacity by boosting innovation through cooperation and flow of knowledge among higher education (HE), vocational education and training (VET) (both initial and continuous), and the broader socio-economic environment, including research.

They also aim to boost the provision of new skills and address skills mismatches by designing and creating new curricula for HE and VET, supporting the development of a sense of initiative and entrepreneurial mind-sets in the EU.

Objectives

1. Fostering new, innovative and multidisciplinary approaches to teaching and learning: fostering innovation in education design and delivery, teaching methods, assessment techniques, learning environments and/or developing new skills;

2. Fostering corporate social responsibility (e.g. equity, inclusion, climate change, environmental protection and sustainable development);

3. Stimulating a sense of initiative and entrepreneurial attitudes, mind-sets and skills in learners, educational staff and other workers, in line with the Entrepreneurship Competence Framework

Objectives

4. Improving the quality and relevance of skills developed and certified through education and training systems (including new skills and tackling skills mismatches);

5. Facilitating the flow and co-creation of knowledge between higher education and vocational education and training, research, the public sector and the business sector;

6. Building and supporting effective and efficient higher education and vocational education and training systems, which are connected and inclusive, and contribute to innovation.
