International Medical Education Trust - Palestine

International Medical Education Trust - Palestine

Issue 14, April, 2017

The overall mission of the Palestinian Health Sciences Education Centre is to provide high-level professional education services to support and enhance the learning capacity of all involved in health science education and service delivery as a continuing lifelong learning experience. In doing so, it will undertake research and development to pioneer and exploit all modalities of the IT revolution including video-conferencing, telemedicine, website learning and internet connections and vehicles such as Moodle, aspiring to establish an international reputation as a centre of excellence, eventually to have a major impact on patient care in Palestine.

IMET2000-PAL Organised a Training for Psychiatrists on Forensic psychiatry

In collaboration with the Mental Health Unit in the Ministry of Health, IMET 2000-Pal organised a training for psychiatrists on forensic psychiatry on April the 13th, 2017. The workshop was held at the Directory of Health building – Ramallah and was attended by 12 psychiatrists from the different districts of the West Bank. It was led by Dr Hasanen Al-Taiar -Forensic Psychiatrist, Oxford, UK. The training focused on writing forensic psychiatric reports, expert witness and giving evidence in courts, risk assessment, mental capacity and power of attorney. IMET2000 was asked to organise training on these topics by the MoH Mental Health Department Director taken in consideration there relevance to psychiatry practice in Palestine.

The First Annual Conference on Clinical Audit and Research in Palestine

Under the patronage of his excellency the Health Minister Dr Jawad Awad, the First Annual Conference on Clinical Audit was organised by IMET2000-Pal, at the Palestinian Red Crescent Society building on April the 15th, 2017. The conference was honoured to have 120 participants, of doctors, nurses, medical and nursing students. Speakers from both Palestine and the United Kingdom gave interactive lectures on the importance of clinical audit, its role in advancing the Palestinian health sector and the fundamental steps to conduct clinical audits. After that, 14 abstracts, each on a different subject, were orally presented and discussed. The day was concluded with a dinner over which participants exchanged feedback, ideas and initiated networking.

IMET2000-PAL organised the third workshop on Medical Research Methodology

On the 18th of April 2017, IMET2000-Pal organised a workshop on medical research methodology for the medical and postgraduate health sciences students. The workshop was held at Al-Quds University-Jerusalem, and was attended by 180 medical students. It was opened by Dr Dina Al-Bitar and led by our CEO, Dr Malik Zaben, Clinical Lecturer & Researcher in Neurosurgery, Cardiff University, UK. The training highlighted the importance of research in general and clinical research in particular in improving patients' healthcare. In this workshop students were trained on how to conduct a clinical audit, formulate a research question and read/write a scientific paper. The workshop was concluded by an inspirational lecture in which Dr Zaben talked a bout his experience as an academic surgeon. The students feedback on the workshop was excellent. IMET2000 will support students who are interested in conducting research projects in the future.
