Inside This Month's Issue

1. IMET2000 Launches the First In-home ATLS Training in Palestine
2. IMET2000 Supports a Medical Student-Led Campaign to Increase People's Awareness of COVID-19 in Palestine
3. Training the Trainer (TtT) Workshop for An-Najah National University
4. IMET2000 Held Three Basic Life Support Training Workshops this Month

IMET2000 Launches the First In-home ATLS Training in Palestine

We have launched the first Advanced Trauma Life Support course in Palestine for three consecutive days. This course comes after months of work and preparations by our team in Palestine.

16 doctors will be trained on the latest guidelines on how to handle acutely injured patients. This course is recognised internationally for its positive impact on saving lives after traumatic injuries.

We are exceedingly grateful to our partners in Jordan ATLS Chapter for their support all along. We are also extremely thankful for our funders who have enabled us to get our trauma training unit equipped and refurbished!

Thank you all IMET2000-Pal members of staff and faculty members (local and visiting) for making this dream come true!!

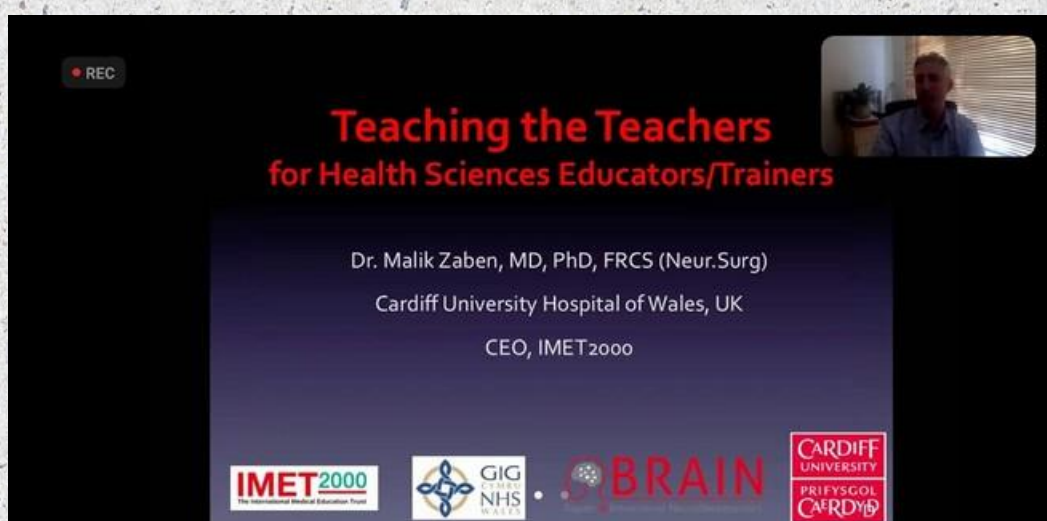

IMET2000 Supports a Medical Student-Led Campaign to Increase People's Awareness of COVID-19 in Palestine

This campaign conducted by PMSA and supported by IMET2000 aimed to increase community awareness on COVID19 and its vaccination and encourage the people to wear masks and take the vaccine. This activity was conducted in approximately 6 places where more than 35 members from PMSA have volunteered in the activity. Masks and brochures were handed out to people in public places and malls in order to raise awareness about COVID-19, its symptoms, and the appropriate way to wear masks.

Training the Trainer (TtT) Workshop for An-Najah National University

IMET2000-PAL Organised the Training the Trainer (TtT) workshop for An-Najah National University via zoom. This workshop consisted of four sessions and attended by more than 100 medical staff from the Faculty of Medicine and Health Sciences. This workshop was opened by Dr Khalil Issa the Dean of The Faculty of Medicine who welcomed the audience and our CEO Dr Malik Zaben, who led the training. This workshop comes as part of IMET2000's effort to promote and develop medical education in Palestine.

Course Objectives

1. Introduce new medical teachers to the exciting opportunities facing them.
2. Assist more experienced teachers to assess and review their own practice.
3. Gain more experience on how best to facilitate students and trainees learning.

IMET2000 Held Three Basic Life Support Training Workshops this Month

IMET2000-Pal in cooperation with Arab American University, Bethlehem University and An-Najah National University organised three Critical Core Training:

Basic Life Support (BLS) for Physicians and Nurses

The workshops were attended by 31 doctors and Nurses from different hospitals in the West Bank at IMET Training Centre, Bethlehem University and An-Najah National University. these workshops aim to learn about Cardiopulmonary Resuscitation (CPR) for healthcare professionals, Automated External Defibrillation (AED) and First Aid. They were led by (American Heart Association “AHA”) Instructors.

Day one: 8/8/2021

Day two: 9/8/2021

15/8/2021

21/8/2021
