IMET2000 Signed up a Memorandum of Understanding with Al Quds University for Future Collaboration

The CEO of IMET2000, Dr. Malik Zaben, and President of Al-Quds University, Prof. Imad Abu Kishk signed up a memorandum of understanding to establish a strategic cooperation relationship in developing the academic staff, medical and allied health professions students at the university. This also aims to implement joint programs within the framework of the practice of clinical research. This agreement will establish areas of collaboration that were agreed on between IMET2000 and Al-Quds University to contribute to the development of the quality of education in Palestine.

Prof. Abu Kishk expressed his happiness with this agreement as a key milestone towards the development of Health Sciences Education at the University and as it establishes the foundations for strong relations between the two parties. Dr. Zaben said "we are looking forward for more collaboration with Al-Quds University and other Universities in Palestine"; we hope these efforts will ultimately lead to the establishment of innovative Health Sciences Education programmes in the country which will on its turn reflect on a better-quality healthcare for our people.

IMET2000 Organised Advanced Cardiovascular Life Support Training Workshops at IMET Training Centre

IMET2000-Pal held a workshop covering advanced cardiopulmonary resuscitation that was attended by 6 doctors from different hospitals. It was titled:

Advanced Cardiac Life Support (ACLS) Course for Physicians

The workshop opened by Dr Alaa Salameh, where he welcomed the attendees and outlined different events organised by IMET2000. The workshop was directed by Mr Farid Abu Ellil a reliable instructor from the American Heart Association. The training involved the use of medical dolls which helped educate the trainees on how to perform advanced cardiac resuscitation on patients that needed immediate aid and allowed them to practice it. This was alongside a scientific and practical explanation provided by the instructors. At the end of the second day, the trainees were assessed to measure their ability in dealing with such cases.
